Dowa Line Becomes ECS Spare Parts Distributor Next Year

*Signed a Sales Contract for ECS Spare Parts and Chemical
Expected to Contribute to Speedier Customer Responsiveness in Japan*

[Contract signing by Vice President Sung-Tae Kim from Techcross (left) and Executive Managing Director Inoue from Dowa Line (right)]

Dowa Line Co., Ltd., a Japanese regional AS service agency of Techcross, will sell ECS spare parts starting in the new year.

Recognizing the importance of the sales of spare parts as the volume of transactions is expected to increase due to the soaring sales of ballast water treatment systems, both companies signed a contract for ECS spare parts service in the Techcross Busan Plant on December 6. With this contract, Dowa Line will become the regional distributor of spare parts and chemical in Japan, starting in January 2020, and the business will be handled by the International Project Department of Dowa Line. (Contact: Tel. +81-3-3433-7322 / E-mail. ipd-parts@dowaship.co.jp)

Techcross now has 13 official spare parts distributors around the world, and is continuously working to maintain an advanced global service network in order to respond quickly to orders from customers.
